Essex County Council

Basildon Enterprise Centre

“An Enterprise Centre is more than just a business space,” says Centre Manager Jackie Banks. “What businesses value most is the opportunity to share ideas and learn from other people who have been through the same early-stage experiences. It’s significant that we have seen no failures in the last three years, despite difficult economic conditions.”

Flexible, affordable facilities

The Basildon Enterprise Centre offers a choice of 37 managed workspaces from 13 to 36 sq m (144 to 392 sq ft). You pay a single monthly fee that covers rent, business rates, power, lighting, heating, free onsite parking, kitchen facilities, 24/7 access via a security system, reception, breakout area, and cleaning of communal areas/service charges.

Meeting Facilities

The Centre also provides meeting facilities in two rooms, which you can hire for a discounted fee. The rooms have whiteboard, flip chart and projector facilities and provide a professional venue for meetings with clients, demonstrations or training.

No long-term commitment

Our Centre provides you with a flexible, affordable base for your business venture. You can expand within the Centre without the hassle of relocating. An easy in/easy out licence means you can leave anytime. Two years is the average stay, with most businesses ready to move on.

“As an ex-tenant of the Essex Enterprise Centre, I would happily recommend Jackie and the Centre to any new business owner. The “start-up centre” not only offer the facilities you will need during your start up, they also go out of their way to offer help, advice and support including arranging external experts to attend the centre for workshops, clinics etc. We owe a great deal of our success to Jackie and the team. Thank you for your support in the early days!”

Joanna Noble, Noble Recruiting

Stimulating, supportive environment

Basildon Enterprise Centre provides a stimulating and supportive environment for growing businesses. Statistics show that businesses based in an incubation environment increase their survival rate by 50%.

Jackie feels that there is a great sense of community in the Centre, something you just don't get in normal rented premises or a home office. The team at the Centre can also arrange mentoring with experienced business professionals or introduce useful contacts who are used to working with young businesses. “We can put businesses in touch with the right experts to solve problems or take advantage of business opportunities.”

Springboard to success

Many companies have built successful businesses on the foundation of their early years at Basildon Enterprise Centre. Construction, electrical and drafting companies, care and recruitment agencies, and financial services firms began life here and some have become large operations. A drafting firm now has two partners, four full-time employees and four apprentices. A recruitment agency is now an award winning, profitable and well respected business.

Make the right move

If you would like to give your business a fast start, contact the Basildon Enterprise Centre to find out about available workspaces.

The Essex Enterprise Centres are the first stage in the support available from Essex County Council's INVEST Essex team for growing and innovative businesses. As your business grows, programmes like the Essex Innovation Programme will help take you to the next level.
